DETAILED ACTION

This office action is a response to the amendment filed on 11/14/2008.

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: the prior art of record fails to disclose the claimed invention such as moving the head down at the second speed with a predetermined distance including a first predetermined distance when the measured contact load is zero and a second predetermined distance when the measured contact load exceeds zero and keep incrementally moving down the head by the second predetermined distance until the measured contact load reaches the predetermined contact load, wherein the second predetermined distance is smaller than the first predetermined distance. The closest reference of APA teaches a process of moving the head down with a second speed slower than a first speed until the head reaches the predetermined contact load with a constant predetermined distance and speed. It is not obvious taken alone or in combination of other references fairly to suggest the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

1. Claims 15-21 are allowed.
